**[FAITH BASED ADOPTION NONPROFIT RADICALLY

*Local Adoption Agency Offering a Unique PERSPECTIVE to the Recent
Adoption Law Debate in TN*

Knoxville, TN, Jan. 29, 2020 – With the recent signing of the Anti-LGBT adoption bill and how it relates to faith based adoption agencies, we at Destiny Adoption have a unique perspective. We are a faith based adoption agency that is also radically inclusive and totally different from the single voice being trumpeted at the state level.

It has caused us to recognize that legislation has inferred and generalized that faith based agencies will not support same sex families. As an agency, we represent a different voice in the faith based community that has been too quiet and allowed this generalization to happen in our state.

In doing so it has caused us to sit back and realize that the faith community has labeled the LGBTQ community as not worthy of receiving the gift of family. WE WILL ADVOCATE AS A TEAM OF “JESUS GIRLS” AND STAND BY THE LGBTQ COMMUNITY AND THEIR HUMAN RIGHT TO CREATE A HOME THROUGH ADOPTION AND WE ARE HONORED TO ACCOMPANY THEM ON THE JOURNEY.

We serve gay and lesbian couples as well as LGBTQ individuals. We believe that faith and inclusion are not enemies. We are women of faith and wholeheartedly inclusive. We work with all families and place children with families who successfully complete and pass a home study including single moms and dads, heterosexual couples, same sex couples and LGBTQ individuals.

We recently read a quote that sums up both our heart and intention in serving all families and expectant moms both traditional and non traditional. It was simply this..."If we are standing with the marginalized and not being hit by the stones being thrown at them, then we are not standing close enough." We want to stand close and build relationship and give all people the opportunity to pursue the creation and experience the beauty of family. As a group of passionate women, we have lots of coverup for any bruises we might receive along the way.

Destiny Adoption is a private nonprofit adoption agency serving Florida and Tennessee with more than four decades of adoption experience.
